## PROJECTS

### • SUSH CRUSH Web APP :

A web application built using modern and efficient React.js, powered by Vite for fast performance, leveraging the elegance of React Hooks for seamless state management, and using Bootstrap for styling.

Live demo : <https://lnkd.in/ekKuuc6G>

### • Prayer Times

I created a website to display prayer times according to governorates in Jordan. This website was an application on React JS.

Live demo : <https://lnkd.in/ekKuuc6G>

### • TO-DO-LIST Application

Simpl task in html ,css and js .can add , edit and remove tasks . All tasks stored in local storage.

Live demo : <https://lnkd.in/ekKuuc6G>

### • Training.jo Website

You can search for the company based on the name and field of training.you can find companies located in all governorates of the Kingdom.
